

KCCLA PRESENTS:

London Power Tunnel Project: National Grid

National Grid is building three deep level tunnels to house high voltage cables as part of a continuing investment in the electricity network.

Project Team Manager, Martin Magee, will provide an insight into the project, including how the construction is to be progressed and the key challenges faced.

A drinks reception will follow the talk. If you would like to attend please RSVP to: Wendy Smith at G&T (w.smith@gardiner.com).

Date: Thursday 16 February 2012
Venue: G&T, 10 South Crescent, London WC1E 7BD
Start: 6.00pm registration for 6.30pm start
End: 9.00pm
