Over the 20 years of the existence of the King's College Construction Law Association the construction industry has enjoyed both huge expansion and dramatic collapse.

John Uff as founder of the Centre of Construction Law in 1987, international arbitrator, advocate, engineer and academic has seen and experienced it all.

He will take as his theme the possible link between the roaring success – or otherwise - of the industry and consequent effect on dispute resolution – and question what we, as construction professionals, can learn from it, gain from it and possibly do something about it!

Our tremendous and supportive sponsors over the last 20 years of our existence as KCCLA, Sweet & Maxwell, will be attending the lecture as always, handing over to Kieron Fano the 2016 top student prize, and hosting a celebration drinks party after the lecture.

We very much look forward to seeing you at this special anniversary lecture.

If you and your guests would like to attend on the 11 May please email Anne Wright ([awright@lawstep.co.uk](mailto:awright@lawstep.co.uk)) and your name will be registered.
